MARCH 5, 2021

EMAIL SCAM WARNING

Members are asked to be aware that a fraudulent email is being used to request donations on behalf of the American Club. Any communications purporting to be from the American Club that do not have the “american-club.com” domain in the email address should be ignored and deleted.

Your Managers also take this opportunity to gently remind Members, brokers and the Club’s other business associates of the need for diligence and attention when receiving emails that include suspicious requests. When in doubt, the authenticity of an email and its contents should be verified through communication with the purported sender.
