

MARCH 08, 2013

CIRCULAR NO. 10/13

TO MEMBERS OF THE ASSOCIATION

Dear Member:

ELECTRONIC (PAPERLESS) TRADING SYSTEMS - ELECTRONIC SHIPPING SOLUTIONS AND BOLERO INTERNATIONAL LTD – UPDATED ESS DSUA VERSION 2013.1

Members are asked to note that the International Group of P&I Clubs (the Group) has approved an updated version of Electronic Shipping Solutions (ESS)'s electronic trading system. This version is called DSUA 2013.1 and it enables electronic trading both in respect of bills of lading and waybills. It supersedes ESS's previous electronic trading system DSUA 2009.3 which remains approved for the purposes of Club cover. DSUA 2013.1 will come into effect as of March 18, 2013.

Members will recall, as reported in [Circular No. 24/10](#) of September 16, 2010, that until February 2010 the rules of all of the Group clubs specifically excluded liabilities in respect of the carriage of cargo under all electronic, that is paperless, trading systems to the extent that the liabilities under such systems would not have arisen under a 'normal' paper system, that is one using transferable paper documentation.

The Group, after reviewing a number of electronic trading systems, agreed that liabilities arising in respect of the carriage of cargo under such systems would be covered from February 20, 2010 provided that the system had first been approved by the Group. The two systems approved by the Group in their versions current at the date of the previous Circular mentioned above were that administered by Electronic Shipping Solutions (the ESS system - version DSUA 2009.3) and that administered by Bolero International Ltd (the Bolero system - Rulebook/Operating Procedures September 1999).

Both those two systems continue to be approved. The websites of the two entities are www.essdocs.com and www.bolero.net.

The legal documentation associated with the use and operation of the two systems is reviewed by the Group and its legal advisers if and when amended by either of the organizations, to ensure that any modifications introduced by them meet the Group's requirements.

Traditional exclusions of cover under Group club rules relating to the carriage of cargo will, of course, continue to apply in respect of ESS and Bolero in the same way as for paper systems e.g. discharge at a port or place other than the port or place provided for in the contract of carriage, the issue / creation of an ante- or post-dated electronic document / record, delivery of cargo without the production of the negotiable electronic document / record.

Members should also be aware that participation in an electronic trading system may expose them to certain liabilities which are not of a traditional P&I nature. These may arise through shipowners or charterers who wish to participate in either the ESS or Bolero systems being required to be party to particular contractual arrangements under which they assume obligations necessary for the system to operate. Examples of such liabilities may be for breach of confidentiality undertakings or of

obligations to maintain computer links. Members should be aware that, in so far as such risks are not of a traditional P&I nature, other insurance arrangements may be required.

Finally it would be helpful to the Group, in monitoring the use and development of the two systems, if Members who are using either of them would advise the Club that they are doing so and of any benefits or difficulties which they encounter, legal or practical, in the operation of either system.

Yours faithfully,

Joseph E.M. Hughes, Chairman & CEO
Shipowners Claims Bureau, Inc., Managers for
THE AMERICAN CLUB

All Clubs in the International Group of P&I Clubs have issued similar circulars.
