GOOD CATCH UPDATE: ANIMATION – ICE, ICE SAFETY PART 2

River ice conditions can create a number of challenges for tug and barge operations. Make a Good Catch by being proactive in monitoring ice conditions and maintaining communication with other operators, the National Weather Service, the US Coast Guard, the US National Ice Center and any other relevant authorities for the regions of operation.

In this context, your Managers are pleased to present the latest animation instalment of the Club's Good Catch initiative: [Ice, Ice Safety – Part 2](#).

As a reminder, all Good Catch alerts and animations are posted at the Club's website at:

https://www.american-club.com/page/good_catch

It is recommended that Members take note of this information and be guided accordingly.
