## **GOOD CATCH UPDATE: *THE COMBUSTIBLE ZONE!* ANIMATED IMAGES**

Combustible materials, open fire doors, small fuel and oil leaks can quickly become fire hazards, creating risk to crew members and their vessels. Make a Good Catch by utilizing good engineering practices to identify hazards beforehand and eliminating potential fire sources.

In this context, your Managers are pleased to present the latest animation instalment of the Club's *Good Catch* initiative:

- *The Combustible Zone!* animated images available in [English](#), with [new](#) and [traditional](#) Mandarin.

As a reminder, all *Good Catch* alerts and animations are posted at the Club's website at:
