LOSS PREVENTION: ANIMATION – *COLLECTION OF PERISHABLE EVIDENCE*

Once immediate safety, cargo, and environmental concerns have been addressed following an incident, timely evidence preservation becomes very important. Properly collected, preserved, and documented evidence provides information that enables us to learn from incidents, verify compliance with regulations, procedures and policies, and properly establish the incident's liabilities.

The American P&I Club's animation - *Collection of Perishable Evidence* - outlines common forms of perishable evidence and introduces practical guidance to support effective evidence preservation onboard and is available in English, with new and traditional Mandarin subtitles on the Club's [Emergency Response](#) webpage.

To access the Mandarin translations, click on the three vertical dots in the lower right-hand corner of the screen. A box, as seen in the example below, will appear. Click on "Captions" and the options for the translations will appear.

It is recommended that Members take note of this information and be guided accordingly.
