## **FRAUDULENT PRE-EMPLOYMENT MEDICAL EXAMINATION (PEME) CERTIFICATES**

It has come to the Managers' attention that there are fraudulent American Club PEME certificates in circulation. More specifically, after requesting verification of certificates with the Club approved clinic, there have been instances where it has been found that the security hologram stickers with numbers do not match with the corresponding name and other personal data.

Your Managers recommend that Members verify the validity of the certificates with the Club approved clinic where the PEME certificate was issued. Your Managers will be pleased to assist in verifying the PEME certificates upon a Member's request. Please direct those inquiries to Dr. William Moore, Global Loss Prevention Director: [william.moore@american-club.com](mailto:william.moore@american-club.com).
