

MARITIME AND PORT AUTHORITY OF SINGAPORE

PORT MARINE CIRCULAR NO. 14 OF 2016

22 September 2016

Shipping Community

ZIKA VIRUS

1. The Ministry of Health (MOH) and National Environment Agency (NEA) have been informed of the first locally transmitted case of Zika Virus in Singapore on 27 August 2016.
2. Some ports may require ships arriving from Singapore to provide evidence of mosquito eradication measures that have been carried out. Shipowners or agents are advised to check with your intended port of call if any such requirements have been imposed. The NEA does not issue certificates for mosquito eradication. Ship owners or agents are advised to engage a vector control operator or fumigator to carry out vector control measures to eradicate mosquitoes on board and for the issuance of a service report from the company.
3. Shipowners or agents can refer to the list of licensed vector control operators (VCOs) that are known to be able to provide **fumigation services** and the list of licensed VCOs that are known to be able to provide **vector control services on ships** at the following links:
 - a. List of VCOs that provide fumigation services at [http://www.nea.gov.sg/docs/default-source/public-health/vector-control/fumigation-vcos-\(for-website\).pdf](http://www.nea.gov.sg/docs/default-source/public-health/vector-control/fumigation-vcos-(for-website).pdf)
 - b. List of VCOs that can provide vector control services on ships at [http://www.nea.gov.sg/docs/default-source/public-health/vector-control/vcos-service-on-ships-\(for-website\).pdf](http://www.nea.gov.sg/docs/default-source/public-health/vector-control/vcos-service-on-ships-(for-website).pdf)
4. Please note that these lists of VCOs are non-exhaustive, and there may be other licensed VCOs that are able to provide such services. NEA will update the lists as and when we receive updated information from the VCOs on the services they provide.
5. Shipowners or agents are advised to check on additional requirements that may be imposed on the ship, cargoes and containers at the next port of call.

6. Shipowners or agents may refer to the following websites for more information on the Zika situation in Singapore:
 - National Environment Agency (www.nea.gov.sg/zika)
 - Ministry of Health (www.moh.gov.sg/zika)
7. You may contact port_health_cro@nea.gov.sg should you require further information on mosquito prevention and control measures on ships. Query on this circular should be directed to Capt Lim Khok Cheng at Tel: 65 6325 2418 or Mr Kelvin Ching at Tel: 6325 2411.

CAPT DAKNASH GANASEN
